Why Women Have Nerves

The "blues"—anxiety—sleeplessness—and warnings of pain and distress are sent by the nerves like flying messengers throughout body and limbs. Such feelings may or may not be accompanied by headache or dizziness or by a feeling of depression. The local doctors and infirmities, if there is any, should be treated with Dr. Pierce's Lotion Tablets. Then the nervous system and the entire womanly make-up feel the tonic effect of

M'REYNOLDS SELECTS
SUTER AS SECRETARY

Veteran Newspaper Worker of Capital
to Be Aid of Attorney
General.

WILL LEAVE IMPORTANT BUREAU

From public men, newspaper co-workers, and hosts of other friends, John T. Suter, president of the National Press Club and a veteran Washington newspaper man, yesterday received felicitations by the score on his appointment as private secretary to the Attorney General. Mr. McReynolds authorized the announcement yesterday afternoon.

Few men in the large newspaper fraternity of Washington have made their efforts more widely felt or have acquired as large and varied a circle of friends as Mr. Suter, who has been actively engaged in journalism in Washington for more than twenty-five years. His appointment to a position under the new administration comes in no sense as a recognition of political favors done, but as an appreciation of his ability adequately to fill one of the most important confidential positions in Washington. Kindly, quiet, and capable, John Suter early found for himself a large place in the affectionate esteem of his co-workers in the newspaper profession, his "victims" among public men, and the hundreds with whom he has been associated in the quieter walks of life.

Mr. Suter is a native Washingtonian, the son of a native of the District and the grandson of a pioneer who came to the infant Capital in 1800. His father, for whom he was named, died in 1850. Mr. Suter was educated in the public and high schools of the District, leaving school at the age of seventeen years to associate himself with the late William E. Curtis, then the active Washington correspondent for the Chicago Daily News. When the News management was changed, Mr. Suter was placed at the head

Summer Foods As
Cause of DyspepsiaMany Also Get Diarrhoea.
What to Do in Either
Case.

Summer ought to be the months of most perfect health, but owing to contaminated water and milk, unripe fruit, germs, and insects, the average of health is not good at this time of the year. There is much skin trouble from acid fruits, and much dyspepsia and diarrhoea from cold foods and iced beverages.

The skin trouble is easily stopped by discontinuing fruit for a few days, and by the use of a mild laxative to clean the bowels and tone the blood. The dyspepsia is likewise corrected by the use of a laxative that has combined with it the elements of a digestive tonic. Hence the best remedy to use is Dr. Caldwell's Syrup Pepsin which, as its name indicates, is a pleasant laxative combined with the virtues of pepsin, which we all know is the best cure for indigestion.

Use Syrup Pepsin also for summer diarrhoea. Avoid astringents, physics, and cathartics, as they are unnecessarily harsh. Thousands of good American families prefer Dr. Caldwell's Syrup Pepsin, among them those of Mrs. W. A. Taylor, Beloit, Wis., who finds

of the Washington bureau. Mr. Suter stayed with the same management when the Record and Times-Herald were merged into the Record-Herald.

Mr. Suter was one of the organizers of the National Press Club, and has been prominently and tellingly connected with the growth of the club. He has served as a member of the board of governors and was serving a term as vice president at the time of his elevation to the presidency. His popularity with newspaper men was further attested by his election for two terms to the standing committee of correspondents in the Capital press gallery, and his election as secretary by the committee. As secretary of the standing committee he arranged for the seating of the press at the Republican and Democratic conventions of last year, arrangements which met with an unusual degree of commendation from newspaper men who gathered at these meetings from every part of the Union. He also arranged for the seating of the press at the inauguration of President Wilson last March.

Mr. Suter was active in his association with William E. Curtis in the organization of the Bureau of American Republics, from which grew the Pan-American Union of today. He spent the greater part of 1891 and 1892 in this work, and part of 1893 assisted in the organization and management of the Latin-American bureau at the Chicago World's Fair. Mr. Suter is married and has three children. He lives at 1642 Monroe Street Northwest. He plans to take up his work in the Department of Justice as soon as he can be relieved from his present work with the Chicago Record-Herald bureau.

she can give it to her baby without causing cramps or pains, and Mrs. Wm. O. Richter, Clayville, Va., who considers it a laxative tonic absolutely unexcelled. They know of no pleasanter cure for constipation, liver trouble, indigestion, summer diarrhoea, etc. It is valuable to all the family from infancy to old age. Children like its taste. All druggists sell it at fifty cents and one dollar a bottle, the latter being the family size.

Families wishing to try a free sample bottle can obtain it, postpaid, by addressing Dr. W. B. Caldwell, 413 Washington St., Monticello, Ill.
